- Database: PostgreSQL

KEYSKILLS

- Web App. Development
- Backend Development
- InterfaceDesign
- Front End Coding
- Terminal Application Design

EDUCATION

2022

Diploma of IT (Bootcamp)
CoderAcademy

WEB DEVELOPER PROFILE

I am a qualified Full-Stack Web Developer with a background in **Electronic Engineering** and am passionate about producing high-quality websites that not only exceed client expectations and but also help **enhance their business** and **brand**. I am skilled in **JavaScript**, **React**, and **Ruby-on-Rails**. My Engineering degree has provided me with a strong foundation in the principles of Engineering Design, which has helped me in creating software solutions that are well-designed, efficient, properly documented, and thoroughly tested. The degree has also provided me with the ability to learn new languages and adapt to changes in the web development industry, ensuring that I can continuously **deliver top-quality applications**.

KEY PROJECTS

NORTHERN DETAILING WEBSITE

<https://northern-mobile-detailing.netlify.app/>

- A **Front-End Web Application** (almost completed) built using **JavaScript** and the **React** library.
- To serve as the **official website** for a Detailing business called 'Northern Detailing'.
- Stylish website that uses **text animation** and consistent colour themes to enhance user experience.
- Contains different pages that provide information and images on the business, its services, prices and contact details.
- Provides a **Contact-form** to send emails directly to the business.

SPORTS-4-US APP

[GitHub Link - Front-End Source Code](#)

[GitHub Link - Back-End Source Code](#)

- A **Full-stack Web Application** that is built on a **React Front-End** and **Ruby-on-Rails Back-end** which interacts with a **PostgreSQL** database.
- The application primarily allows individuals to register and book various sporting activities, at times flexible for them.
- Other features include, direct messaging amongst members, messaging in channels, updating profiles, creating and updating activities.

2007

Post Graduate Diploma in Business Management

Management College of Southern Africa, South Africa.

2004

Bachelor of Science in Engineering (Electronics)

University of KwaZulu-Natal, South Africa

CERTIFICATIONS

2013

Overseas Qualified Professionals Program

Melbourne Polytechnic

MY-KID-ACTIVITY APP

[GitHub Link - Source Code](#)

- A prototype **two-sided Marketplace Application**, that facilitates children's extracurricular activities.
- It allows organisations to register activities and parents to register children into different activities.
- Features include image upload using **Amazon S3**, user login and authentication with **Devise** and **Stripe** payment processing.
- Created in Ruby on Rails with PostgreSQL database and deployed using **Heroku**.

EMPLOYMENT HISTORY

SELF-EMPLOYMENT

Web Developer

October 2022 - Present

- Providing **web development services** (Designing, Developing, and Maintaining) to clients on a freelance basis.
- Making use of various web development technologies, such as HTML, CSS, JavaScript, React, Ruby-on-Rails and other programming languages, to build websites that are **functional, user-friendly**, and **visually appealing**.
- Communicating effectively with clients to understand their needs and preferences, **deliver projects on time** and within budget, and troubleshoot and fix any technical issues that may arise.
